ṛgvegapadānām

A List of Words in Padapāṭha

## A Note from Compiler

This edition of Rigveda Padanam was compiled from e-text of Padapatha from the site aurobindo.ru. The edition was checked and compared with:

- (1) Rigveda Padanam: complete alphabet list of words of Rik Veda / Vishweshwarananda Nityananda;
- (2) Several edition of Samhita and Padapatha texts by F. Max Müller

Words are arranged in Devanagari alphabet order. Letters ऌ and ऍ stands after letters उ and ङ. When words are differ from each other only in accentuation then they stand in such order: udāṭṭa, svarita, anudāṭṭa.

There are enumerations (within braces) of numbers of Riks containing this word after every word of this Padanam. If any word is occurred in the same rik several times, the number of its occurrences is indicated after the number of the rik in superscript signs. Every new Mandala at the enumeration is marked by bold font.

Symbol ँ (anusvara) in Padapatha (in Devanagari) is given as

म् at the end of words or before प फ ब भ

ङ् before क ख ग घ

ज् before च छ ज झ

ण् before ट ठ ड ढ

न् before त थ द ध

ं before श ष स ह
